

Argentina TATARU

ROMGAZ S.A., Director of Exploration and Production Department

Ms. Argentina TATARU, Doctor of Engineering Science, mines, oil and gas field, made her debut 32 years ago, at S.N.G.N ROMGAZ S.A. where, after the internship period, due to her passion for the natural gas field, she achieved a high level of professional performance through perseverance and continuous training.

Ms. Argentina TATARU is currently the Director of Exploration and Production Department, an important area of activity for both the company and the regional industry. Constantly evolving, the field coordinated by Ms. TATARU implies a good knowledge of the exploration and production field and of the need to innovate and implement solutions in order to follow the path of sustainable development for the benefit of current and future generations.

During her career, Ms. Argentina TATARU was also associate professor at Lucian Blaga University in Sibiu, Faculty of Engineering, mineralogy, where, under her careful coordination and guidance, she trained generations of professionals in the field of engineering, shaping strong and enterprising characters.

She is also the author and co-author of more than 30 specialized articles published or presented at national and international events and author of two volumes of poetry, "Parfumul nelinistilor" (The Scent of Anxieties) and "Colectia de erori" (The Collection of Errors).
