

Matthias DEEG
Horváth, Partner

Matthias Deeg, Partner at Horváth and responsible for the industry sector Energy, Environment and Telecommunications, has been working in consulting for more than 20 years. He develops strategies, sales concepts and new business models for energy suppliers and service providers, meanwhile in the field of hydrogen and green transformation. After studying mechanical engineering and business informatics and working for various consulting firms, Matthias Deeg joined Horvath in 2007, where he consistently drives forward the expertise of energy utilities.
