

Mihai PEȘTE

General Manager- Rețele Electrice

Mihai Pește is the General Manager of the electricity distribution company Rețele Electrice România, having previously led E-Distribuție Muntenia and Enel's electricity distribution operations in Rio de Janeiro, Brazil, as well as the distribution network development department of the Enel group in Brazil, between 2020 and 2023.

Mihai joined the Enel companies in Romania in the summer of 2006, in the role of electrical network design engineer. He subsequently followed an intensive managerial development program, so that after 2011, for more than ten years, he managed the distribution networks in Ilfov and Bucharest and coordinated (after 2015) the electricity distribution in the Muntenia region.

In 2004, he graduated from the Faculty of Electrical Engineering at Transilvania University of Brașov, and today he is one of Romania's top specialists in the energy field.
