

Cosmin MITU

Director of the Hydro & Thermo Division, Electromontaj

Cosmin Mitu is a senior executive with nearly 20 years of experience leading complex energy and infrastructure projects. At Electromontaj, he leads the Hydro & Thermo Division and is responsible for the full project lifecycle, from business development and tendering to execution and delivery, while contributing to the company's long-term development as a member of the Executive Committee.

He joined Electromontaj in 2021 as Business Development Director and played a key role in shaping the company's expansion into hydro and thermal activities. By building a dedicated team and establishing the operational framework for this business line, he helped lay the foundation for the Hydro & Thermo Division. Under his leadership, the division secured and delivered complex projects, reinforcing Electromontaj's position in these areas.

Before joining Electromontaj, Cosmin spent more than a decade at Romelectro Group, where he progressed from Thermal Projects Director to Head of Hydro Division. During this period, he took on broader operational and strategic responsibilities, contributed to major business transformation initiatives, and led a diverse portfolio of complex projects.

He holds an Executive MBA from ASEBUSS in partnership with Kennesaw State University in Georgia, a Master's degree in Energy Efficiency and Conservation, and a degree in Power Engineering from the University Politehnica of Bucharest. He combines strategic thinking with a practical, results-driven approach focused on building strong teams and delivering lasting business impact.
