

Virgiliu IVAN

Director of NDC

Virgiliu Ivan is one of the key specialists of the National Energy System, ensuring the coordination of the operational activity of the entire electricity transmission network.

He has extensive experience in the energy field, over 25 years of activity within Transelectrica. He began his professional activity within CNTEE Transelectrica SA since the establishment of the Company, where he held several key positions, the most recent being that of Director of the National Energy Dispatcher, starting with 2014.

Mr. Virgiliu Ivan began his career in energy in 1999, as an engineer within S.T.D

Bucharest. During the period 2000-2002 he was Chief Shift Dispatcher in the Territorial Energy Dispatcher in Bucharest, and in the period 2002-2006 he held the same position within the National Energy Dispatcher. He was the Chief Shift Dispatcher within the Central Energy Dispatcher (2005-2008), then Head of Programming and Operation Analysis (2008-2013). In 2013, he was appointed Director of the Operational Directorate, a position from which he coordinated the operational management activities of the National Energy Dispatcher until 2014, when he became Director of the National Energy Dispatcher Operational Unit.

Mr. Virgiliu Ivan graduated from the Politehnica University of Bucharest (UPB) in 1999, specializing in Electroenergetics, studies that he also deepened within the UPB, during the period 1999-2000, specializing in Management of electrical processes in power plants and stations, techniques and technologies.
